Launch of the Creative Europe tour

After launching a European consortium — the *Creative Room European Alliance (CREA)*, supported by the Creative Europe program of the European Commission and gathering nine founding partners across five countries — members of the alliance are now setting off on a tour of Europe aimed to putting creativity at the core of cultural trends.

The Creative Europe tour starts on September 28, 2022, in Madrid, in a place of capital importance to Spanish culture: the Cervantes Institute. Luis Garcia Montero, the director of the institute and author will gather creators and cultural actors around Madrid's very own kind of creativity, specifically in music and writing.

With their keen interest in art and modernity, Hungarian authors will be in the spotlight on October 13, 2022, at the opening of the Margo festival, an international book and literature exhibition held at the wonderful National Dance Theater in Budapest.

Italian writers and artists will be the topic du jour on October 19, 2022, at Venice's Piazza San Marco, surrounded by cultural actors and Italian publishers from Creative Europe.

The cultural and creative industries sector is rallying throughout Europe around the Creative Europe theme.
